## NOTICE

November 18, 2009

The Wells County Probation Department has for many years prepared summary criminal history reports for individuals and agencies upon request. Since Indiana probation departments are not depositories of public records, the practice of preparing these summaries was simply a courtesy service to the community.

Due to the increasing number of demands for this service amid the requisite services of this department to the Courts, the Wells County Probation Department will no longer provide summaries of local criminal records to individuals or agencies unrelated to a branch of the judiciary.

Therefore, individuals and non-judicial agencies are directed to contact the Wells County Clerk about accessing criminal records located in Wells County.
