

CONSULTING SOIL SCIENTISTS

Wells County Health Department
223 West Washington Street
Bluffton, IN 46714
Office: 260-824-6489 Fax: 260-824-8803

The soil scientist
DOES NOT
provide the backhoe

These are the soil scientists that have registered with the Indiana State Department of Health and have agreed to consult in Wells County. A soil report from a certified soil scientist is required to obtain a septic permit. *Please follow these instructions:*

1. Contact the soil scientist of your choice to set an appointment.
2. Notify the soil scientist if the site is on the *Wabash Recessional Moraine*. (The map on the reverse side shows the locations of the *Wabash Moraines*.) Appointments for *Wabash Recessional Moraine* sites must be scheduled Monday through Friday, 8:00 – 4:30. (Refer to the *Moraine Policy Map* on the orange sheet)
3. Contact a registered installer (recommended) with a backhoe and laser to be present.
4. Notify the Health Department **as soon as the appointment is scheduled**, of the date, location, time and the soil scientist. This is extremely important in the event of a scheduling conflict.
5. Submit a copy of the completed "Site Evaluation Form" with the \$25.00 fee to the Health Department and confirm receipt of the soil report.
